

## INSURANCE ADDENDUM

Dear Resident:

It is a known fact that many renters are not adequately insured for the protection of their personal property or damage deemed negligent by an insurance adjuster after their investigation of the loss.

You should be protected for fire and extended coverage insurance on your personal property and liability insurance or be prepared to cover any losses that might occur through your own means.

We strongly recommend, for your welfare and peace of mind, that you consult your insurance counselor and review your personal needs.
